PROFILE

Hardworking College Student seeking employment, with
excellent frontend web development skills. As a passionate
and dedicated individual with a strong interest in frontend
development, I have honed my skills through self-study and
personal projects. I am eager to contribute my skills and
dedication to a dynamic team and make a positive impact in
the field of Full Stack development.

PROJECTS

Personal Portfolio Website

As a frontend web developer, I have designed and developed
a personal portfolio website to showcase my skills, projects,
and achievements.

ComicKaze

ComicKaze is an ecommerce website built on wordpress by
me as a freelancer. It specializes in selling anime
merchandise. This platform offers a variety of products
related to anime culture, catering to anime enthusiasts and
collectors.

Aquaregia

A website for a reason It's my first website for our college fest,
Aquaregia. This website serves as a digital platform to
promote the event, provide information about its various
activities, and engage with the audience.

Kia

A Commercial website of Kia brand. Included
all commercial servies of Kia and more contact
details in this website

Pexelicons

Pexelicons is a website that offers custom folder icons for
Windows, allowing users to personalize their PC by changing
the default folder icons to match their style preferences.

QR Generator

A Introduction page of OpenAi according to responsive website to
demonstrate my UI design skills. This platform enables users
to encode text into QR codes effortlessly. It serves as a
practical tool while also showcasing my proficiency in
designing intuitive user interfaces
